Chapter:	Link and Source:
1. Beginnings	http://www.storyofmathematics.com/ (Lots of good general historical information)
2. Archimedes	https://www.cs.drexel.edu/~corres/Archimedes/contents.html (Drexel University)
3. Babylonians/Egyptians	http://ancienthistory.about.com/od/abacus/a/BabylonianMath.htm (Base 60 system, etc.)
4. The Abacus	http://www.ee.ryerson.ca:8080/~elf/abacus/history.html (Luis Fernandes web page)
5. Angles	www.fig.net/pub/cairo/papers/wshs_01/wshs01_02_wallis.pdf (David Wallis; advanced but excellent)
6. The Calculator	http://www.thecalculatorsite.com/articles/finance/history-of-the-calculator.php (Basic history of calculator)
7. Codes	http://nrich.maths.org/2197 (University of Cambridge)
8. Decimal Point	http://www.csun.edu/~hbund408/math%20history/math.htm (California State University Northridge)
9. Einstein	http://www-gap.dcs.st-and.ac.uk/~history/Mathematicians/Einstein.html (University of St. Andrews, Scotland)
10. Longitude and Latitude	http://www.mrdowling.com/601-grid.html (Mr. Dowling’s Electronic Passport)
11. Missing Planet	http://imet.csus.edu/imet1/dave/webquest/case2.htm (The Case of the Missing Planet; David Delongchamp)
12. Mean, Median, Mode	http://www.amstat.org/publications/jse/v11n1/bakker.html (From the ASA; advanced but very interesting)
13. Money Matters	http://www.banknotes.com/ (Large website for world banknote collectors)
14. Pi in the Face	http://mathforum.org/dr.math/faq/faq.pi.html (The Math Forum at Drexel University)

15. Scientific Notation <http://physics.weber.edu/carroll/Archimedes/sand.htm>
(Bradley Carroll; Weber State)
16. Symbols of Geometry See #12 and <http://math.rice.edu/~lanius/Geom/his.html>
(Cynthia Lanus; Rice University)
17. Volume http://www.math.buffalo.edu/mad/Ancient-Africa/mad_ancient_egyptpapyrus.html
(State University of New York at Buffalo)
18. Famous Women <http://www.agnesscott.edu/lriddle/women/women.htm>
(Agnes Scott College)
