

Name _____

Geometry

Read a book about geometry, read the "Geometry" article in an encyclopedia, and find articles or sites about geometry on the Internet to complete these activities.

SYNTHESIS LEVEL

- Write an illustrated dialogue between a point, a line, and a polygon of your choice that will introduce the basic concepts of plane and solid geometric shapes to primary students.

Student Points	
Teacher Points	

	Too plain	More solid	Wright on!	
	1	2	3	4
Synthesis				
Illustrated dialogue between geometric elements	Confusing; hard to follow; many factual inaccuracies	Easy to follow; fact-based dialogue; 1 or 2 illustrations	Each "character" has its own voice; basic geometric concepts clearly presented	Engaging; creative; informative fact-based dialogue; appropriate for primary students
