

Mrs. James' students were lined up at the door to go out to recess. Order the students from first to sixth based on the clues. Amy ran to the bathroom, so she was not first, but she also was not last because Julie had to tie her shoes. John loves recess so he wanted to be first in line, but he wasn't. Rex was in front of five students. Hank was in front of Amy and Julie. John and Joe raced to the line, and Joe won.

Logic 1

The cheerleaders from Carter High School were in competition, and they built a pyramid with 6 girls. Use the clues to discover where each girl was placed in the pyramid. Donna was not on top, nor was she on bottom level. Michele was in the middle on the bottom level, and Helen didn't have anyone on top of her. When facing the pyramid, you can see that Rachel is to the right of Michele. Candy has one knee on Michele's back and one knee on Rachel's back. Ruth is a part of the pyramid, too.
