

Non Fiction In The Primary Grades

CAUSE AND EFFECT Kindergarten

Note: Make a transparency of the illustration or enlarge the picture and tape in the center of a large sheet of chart paper.

Ask:

What is the little girl doing? (Cause)

What do you think will happen? (Effect)

What would be a good title for this picture?

(The teacher writes the title above the picture.)

Ask one student to point to an item in the picture and say its name. Write the word on the transparency or chart paper. Orally spell each letter as it is written. Let the student draw a line from the item to the word. Continue the naming/writing game with other students naming items and drawing lines from the item to the word the teacher writes.
