(4) Narrator: The lion reached out and caught mouse in his paw. Mouse looked at lion’s sharp teeth. Some were missing. A lion should have 32 teeth. Mouse counted 26 teeth. _____ teeth were missing.

(5) Mouse: Please, Sir Lion, if you let me go, perhaps some day I can help you. I am a good seed gatherer. Yesterday I gathered 25 seeds. Today I have gathered 76 seeds. That is _____ more than yesterday.

(6) Lion: I do not eat seeds. I eat mice. But since you are so brave, I will let you go. I am on a diet anyway. Two months from now I hope to weigh 430 pounds I will have lost a total of _____ pounds.
