# Test Prep
Teacher Reflection Page

1. Do test-prep curricula help students learn broad content and skills, get higher test scores, or both? What are the advantages and disadvantages of this type of curriculum?

2. What long-term benefits, if any, do you see in test practice or in having students take sample tests before they take the "real thing?"

3. What strategies do you think are most effective in helping students do well on high-stakes tests?

4. In your experience, does test preparation take too much time away from other types of instruction?

5. What are your best strategies for helping students do well on other tests?
